Community Input Meeting

Speaker 1

Curriculum - grading system and academic competitions

Asked By: Paul Jessen, Community Member

Response Notes: The Student Academic Travel Guidelines outline funding for academic competitions. Academic competitions, such as speech and debate, are funded with campus and district funds. The campus funds student and chaperone travel for local/regional competitions (no more than 2). The district funds student and chaperone travel for state competitions. The district funds chaperones for national competitions, and the student pays their own expenses.

Speaker 2

Staley Middle School Concerns

Asked By: Christina Wolf, Parent

Response Notes: The old Frisco High School was constructed in 1973. When the current Frisco HS opened in 1996 the old high school was closed for a year and gutted to studs and redesigned to become the current Staley Middle School. Staley opened its doors in 1997. Staley also received a carpet/paint update in 2017 and was the first campus to receive a full LED lighting retrofit in 2019.

The Staley roof was damaged from the hail storm in 2021. Immediate repairs to ensure the roof was not leaking were made. The work scheduled for this summer is part of a larger insurance claim. The project was rescheduled for this fall due to delay in product availability. Moving the remainder of this work to the summer of 2024 will not be detrimental to the students or the building.

In the 2018 bond program taxpayers approved funds for the renovation of Staley MS. Frisco ISD has been working with VLK Architects for the past 18 months on programming and design. Once a Construction Manager is hired we will develop a timeline for the project. This spring VLK will present to the board a Guaranteed Maximum Price for approval.

Speaker 3

Vouchers

Asked By: Sherrie Salas, Parent

Response Notes: N/A

Speaker 4

Staley Middle School Concerns

Asked By: Philip Ray, Parent

Response Notes: No restrooms at Staley are closed because of maintenance concerns. The administration has closed a set of restrooms by the cafeteria due to student behaviors. It was mentioned that three classrooms and library were closed as of Monday night. The library includes two small offices and two small group instruction rooms. Staples have been removed in the theater room where some wall cabinets were taken out. The wall will be patched and painted this weekend. One water fountain is out of service. Maintenance is developing a scope of work for this concern.
