

**Did you know?**

**Kumon has centers in 44 countries and regions around the world.  
The Kumon program is studied by over 3 million students worldwide.**

Kumon Math & Reading Center is conveniently located at the intersection of 4 cities – Plano, Allen, McKinney and Frisco. It is on Custer Road, just south of Hwy 121.

Kumon believes that all children have the ability to reach and perform at their highest potential. With Kumon, they can succeed both in and out of the classroom. Whatever your child's current level, we will design individualized math (counting up through calculus) and reading (basic phonics up through advanced comprehension) programs that allow them to advance at their own pace. With our emphasis on individualized learning, your children will become independent, self-reliant, and motivated to learn on their own. Discover the great benefits that Kumon offers and see how our program gives your children the confidence to achieve more than they ever thought possible.

**Junior Kumon: Ages three to five**

Kumon believes that it's never too early to get started with your children's education. That's why we've designed Junior Kumon, a program for students ages three to five. With a more focused learning environment, Junior Kumon will help your child build the fundamental skills necessary to succeed throughout their educational experience. Even at a young age, Junior Kumon students begin to develop their own self-confidence and a passion for learning.

**New Clients ONLY**

- **Free Placement Test**
