

Be Eye Smart ♦ It's Best to Test

- ★ Vision problems are very common, affecting **1 in 4** school age children
- ★ Vision problems can occur without you or your child noticing them
- ★ Vision problems make learning, social interactions & sports more difficult
- ★ Vision screenings (with state-of-the-art equipment & trained individuals) are important, but are not a substitute for routine Comprehensive Eye Exams by an optometrist or ophthalmologist

3-6 months

3 years

5 years

When to get children's eyes examined:

Excellent Vision is a key to an Excellent Education for your children!

Frisco Noon Lions

Bring your pre-schooler to the FREE Vision Screening provided by the Lions Club of Frisco on September 4th from 10am - 1pm at the Frisco Farmers Market located in Frisco Square.
