Dear Parents and FISD Stakeholders:

Across the district FISD uses the Raptor Program as a check-in procedure at the campus level. With this program, when you or any visitor comes to our campus and need to enter the building beyond the office area itself, you will be required to provide the office staff with your driver's license for the purpose of having it scanned. The scanning of your license enables the Raptor Technology System to check the national database for registered sex offenders and it alerts several entities should a visitor appear at our campus that is identified as such via this database. Across the country this tool has allowed predators to be caught who were trying to enter schools as a vendor, repairman, visitor, etc. If a visitor is identified as a sex offender through Raptor, several parties are immediately notified and the information is verified quickly by school personnel so that said personnel can handle the situation appropriately. As you may know, however, a parent or other visitor may be a registered sex offender and still be able to attend school functions if said rights are set forth in the parameters of their court orders. If such should ever be the case, rest assured campus staff members and appropriate, designated personnel will always be in close proximity if and when such visits occur.

We continue to look for ways to assist us in keeping our students safe and FISD feels that this is one more resource in that effort. Note: All parents and adult volunteers will still be required to obtain an annual background check if and when working with or helping to supervise students.
