

2010 Exemplary Campus

Congratulations are in order for the students, faculty, staff and parents of Centennial High School for their combined academic efforts in 2009-10. Centennial High School was recognized by the Texas Education Agency for their exceptional efforts on the 36 criteria used to evaluate and determine the effectiveness and success of Texas public schools when determining campus ratings of either “Exemplary”, “Recognized”, “Academically Acceptable” or “Academically Unacceptable”. This is the second consecutive year that CHS has been recognized with an Exemplary rating and their “Back 2 Back” efforts are noteworthy.

The Titans far surpassed the 90% level of expectations by the TEA in ALL 36 criteria in order to be considered as an Exemplary campus. In fact, Centennial High School, was one of only **five** 4-A or 5-A high schools with a student population that exceeded 1,000 students to earn this prestigious rating **without the benefit of any State exceptions or benefits**; of those five 4-A or 5-A high schools who earned an Exemplary rating without aide or benefit, Centennial High School was the **ONLY** large high school in the state of Texas with a diverse student population to have been so recognized. This speaks volumes to the efforts of our students, teachers, staff and parents and you are all to be commended for your efforts,
CONGRATULATIONS TITANS !
