

Attention, Parents of Senior students :

Beginning January 1, 2010, the State of Texas now requires all first-time students going to college who will reside in on-campus housing to show proof of immunization against bacterial meningitis. Your student must provide documentation of having received the vaccination at least 10 days prior to the student taking up residence in on-campus housing.

We are pleased to announce that CHS will hold a meningococcal vaccination clinic on campus later this spring to assist you in protecting your student. Please check back on this website for date and time to be announced. See the link below for more information on bacterial meningitis. Questions may be addressed to your personal physician or Nurse Wise here at CHS. Phone her at 469 633-5608 or email her at [wiser@friscoisd.org](mailto:wiser@friscoisd.org).
