### Bio & Education

Greetings! My Motto: *Telling the Truth is Priceless!* From August 2004 – May 2008, I served as Executive Producer of Frisco High School's RACC-TV. I was honored to have the opportunity to implement Frisco High School's first-ever television program. Having a weekly broadcast with 30 shows each school year, I concluded my time at FHS, with the completion of a total of 120 shows. I have extensive professional experience in media, having served as a television producer, radio on-air personality, and radio technical operator in the Dallas-Fort Worth area for over 15 years. I have a degree in Radio-TV-Film from Sam Houston State University. My goal is to groom future journalists for a profession that I love so dearly.

### Course Taught

This is my second year teaching Media Technology at the Career & Technical Education Center. As crew members of Frisco ISD-TV, students are exposed to “real world” experience by writing, shooting, and editing news/sports/feature packages, as well as performing studio/control room production techniques. We are responsible for programming that airs on Frisco ISD cable channels throughout the city and surrounding communities of Little Elm and Plano.
