

START OF CONSTRUCTION NOTICE
McDERMOTT ROAD FROM OHIO DRIVE TO COIT ROAD
PROJECT 5387

The City of Plano has awarded a construction contract to Tiseo Paving Company for the construction of the above referenced project. The construction should begin on or about **Monday, March 15th and is scheduled to be completed by the end of the year.**

This project will include the widening of McDermott Road from four lanes to six lanes from Coit Road westward to the intersection with new Razor Boulevard and continue the widening of McDermott Road westward to Ohio Drive from two lanes to four lanes. The project also includes the construction of a new bridge over White Rock Creek, landscaping and street light improvements.

Most of the work east of Robinson Road will consist of widening the roadway into the existing median and the addition of an eastbound right turn lane at Coit Road. Existing lane **closures should be limited to the times of 9:00 a.m. to 4:00 p.m. on Mondays through Saturdays as needed.** Existing lanes that are available should be open during morning and afternoon peak travel times.

The work west of Robinson Road is mostly for the bridge construction and the addition of new lanes away from the existing roadway. There will be some traffic shifts and lane changes later on when the new roadway lanes are opened to traffic.

The attached link is to the City of Plano's CIP projects map where you can check the monthly status of the project as construction proceeds.
