Destination Imagination

Roach Middle School is forming a DI team. Destination Imagination is an educational activity where student teams solve open-ended challenges and present their solutions at tournaments. Each team selects one of 7 challenges, works together using creativity and teamwork to solve a specific problem, and then presents their solution at a tournament in the spring. All work, from brainstorming, to planning, to solving, is done by the student team members. If the team does well at the Regional Tournament, they may advance to the next level.

If you are interested, please see Mrs. Gladden in the office for information about who to contact.
