Bio & Education

Teaching is my passion but business is my background. I have a BA in Business Management from Dallas Baptist University and a Masters of Education from University of North Texas. My background in business consists of sales, marketing, and telecommunications engineering. I enjoy discussing my experiences with students and applying my real world experiences to our lessons. I am the BPA (Business Professionals of America) sponsor and the UIL coach for Accounting.

I look forward to an exciting & long career with teaching students at Wakeland!
