Answer the following questions in sentence form. Please be thorough and neat.

Why do you wish to enroll in the Health Science Program?

What career in the medical field do you wish to pursue?

What do you already know about this course?

What does professionalism mean to you and how would you demonstrate this in a clinical setting?

Were you absent from school more than five times last year? _____ If so, explain.

HEALTH SCIENCE CLINICAL ROTATION PROFESSIONAL CODE OF CONDUCT AGREEMENT

During your clinical rotation you are considered a professional. Therefore, you must act in a professional manner. People are counting on you. Please review the following and insure the best learning experience for you. On acceptance in this program, the student agrees to abide by the following guidelines.

1. Be regular in school attendance (90% of scheduled days each semester as required by law) and clinical rotation attendance or notify the teacher each day of absence.
2. Call the instructor **and** unit if absent or late. If you are going to be late or you will be absent, **YOU MUST** call the instructor **AND** the unit. Place the call ASAP. Do not wait until the last minute. Record the name of the person you spoke to, time, date, and reason for absence on form provided by your teacher. Turn form in at the beginning of the next class. Not calling in when you will be absent or late will result in discipline action and a reduction in your grade.
 - **Consequences:**
 - No phone call for late arrival: 10 points deducted from daily clinical grade
 - No phone call for an absence (excused or unexcused): 30 points deducted from daily clinical grade
 - 1st offense: verbal reprimand and call to parent
 - 2nd offense: meet with principal
3. Be on time. You **MUST** be on your unit and ready to work in a timely manner.
 - **Consequences:**
 - Late >30 minutes: absent
 - Late <30 minutes: tardy
 - 4th tardy: 30 Minute Detention
 - 5-6-7 tardy: 1 hour Thursday Night Live (TNL) Detention
 - 8-9 tardy: 2 hour TNL
 - Tardy 10: 1 Day of ISS
 - Tardy 11: 2 days ISS
 - Tardy 12: 2 Days of OSS
 - If at any time student is caught leaving a site before appropriate dismissal time without getting it approved by instructor, parents will be called and student must make up lost time. Second offense, meet with principal. Third offense, exit from program.
4. Remain on your unit until the end of the class period. Floating to other areas or sites is forbidden.
 - **Consequences:**
 - 1st offense: verbal reprimand and call to parent
 - 2nd offense: meet with principal
5. Always be in full uniform while on rotations.
 - Clean scrubs
 - Clean shoes
 - Hair pulled back
 - ID badge on at all times
 - No jewelry (watch and small earring studs allowed)
 - Stethoscope, pen, and clinical notebook carried to Site
 - **Consequences:** 5 points deducted for each offense from daily clinical grade
6. Assignments will be turned in on time.
 - **Consequences:** Refer to CTE Center Late Work policy.
7. Student will be professional while off campus at each clinical site. This includes:
 - Having a positive attitude
 - Showing respect for employers as well as patients
 - Keeping information confidential
 - Eager to learn new things
 - Willing to help out
 - Always making self available
 - **Consequences:**
 - 1st offense: meeting with teacher and parents called
 - 2nd offense: meeting with principal
 - 3rd offense exit from program

8. Abide by the rules and regulations of the clinical rotation site.
9. Consult with the teacher regarding conflicts at the clinical rotation site.
10. Do not touch your hair. Your hair must be out of your face and off of your shoulders.
Remember: Every time you touch your hair, you must wash your hands.
11. When on unit, **DO NOT SIT DOWN BEHIND THE DESK.** You are there to work. Some days you may be stocking shelves or filling water pitchers, but there is always something to do on the unit.
12. Be observant. Observing the same procedure several times will help you commit the information to memory. There is always an opportunity to learn something new.
13. Ask if there is something for you to do:
 - Fill water pitchers
 - Make a bed
 - Stock shelves
 - Do VS
 - Answer call lights
 - Observe procedures
 - Take a sample to the Lab
 - Take a patient to a procedure
 - Help discharge a patient
14. You are at the beginning of your medical career and do not have the medical training to do all of the procedures. Observing and asking questions are invaluable. The staff will let you know when you can participate during a procedure.
15. Remember that you are a professional and must act like one. People depend on you. You also depend on others for the BEST learning experience.

You make the experience what you want it to be.

This is a very fun and rewarding class which gives student's an exceptional learning experience. Being able to leave campus and learn from outside resources is an asset. Therefore we expect students to take responsibility for their actions so we can continue this course for years to come. We look forward to the new year with great anticipation and excitement. If you have any questions or concerns, please do not hesitate to contact your Health Science teacher. Thank you!

Detach and return as soon as possible.

My daughter/son and I have read and understand all aspects of the Professional Code of Conduct Agreement. We have been informed and understand that the Health Science Program has a "**No Second Chance**" policy and that if I abuse my travel privilege or do not follow the guidelines, I will be removed from the program.

HEALTH SCIENCE CLINICAL ROTATION COST/TRANSPORTATION AGREEMENT

Dear Parents,

Clinical rotation students will spend a great deal of lesson time out in the community at local hospitals, dentists, nursing homes, and will complete a ride-along rotation with Frisco paramedics.

After 24 hours of clinical time at the nursing home and classroom instruction the students will be prepared to take the Certified Nurses Aides test with is certified by the state of Texas.

There are some expenses involved with this program. The requirements are listed below.

Approximate Costs

Students are required to wear clean white tennis shoes.

One Navy Blue basic Scrub Suit	\$30
Stethoscope (optional)	\$18
Scrub Jacket (optional)	\$18
NameTag	\$6
CNA Patch	\$5
Nurse Aide Exam	\$83
TB Test (required)	\$15
Hepatitis B Vaccine (optional)	\$10

STUDENTS MUST PROVIDE OWN TRANSPORTATION TO TRAVEL TO THE CLINICAL SITES.

If you have any questions or concerns please do not hesitate to contact the Program Director:

Sally R. Weatherly RN
weathers@friscoisd.org

**I have read and understand the requirements for participation in Health Science II.
I will be able to provide transportation to and from clinical sites.**

**HEALTH SCIENCE CLINICAL ROTATION
TEACHER REFERENCE FORM**

Student's name (printed) _____ Subject: _____

Teacher's name (printed) _____

Teacher's Signature _____

Dear Teacher,

Thank you for taking the time to evaluate this student. No single item would exclude a student from entering the program, but it helps greatly in looking for strengths, patterns, or areas of concern.

I waive my right to view this reference form so my teacher may feel comfortable to answer these questions honestly.

Student Signature: _____

This form is to be given to each of your current teachers to be completed and returned to your counselor. Your application process will not be complete without your teacher reference forms.

In my opinion: 1- shows concern 5- strongly agree

The student can manage advanced academic work in several classes at the same time.

1 2 3 4 5

The student manages their time wisely and completes assigned tasks by their deadlines.

1 2 3 4 5

The student is able to work independently and with little supervision, redirection, or reminders about their work.

1 2 3 4 5

The student strives for quality in assigned projects.

1 2 3 4 5

The student shows interest and enthusiasm about their school work, uses initiative, and seeks opportunities to learn.

1 2 3 4 5

The student would be trustworthy to leave campus during the school day to travel to work in hospital settings.

1 2 3 4 5

The student makes mature decisions and would be able to behave professionally in a business or medical setting including confidential matters.
