

## CHS Meets Average Yearly Progress

Centennial High School was recently informed by the Texas Education Agency that it is one of the 80% of campuses across the state of Texas that has once again met or exceeded the federal requirements of “*No Child Left Behind*” and the TEA’s academic performance standards require to be considered for the designation of Meets AYP, Average Yearly Progress. For the sixth consecutive year, CHS has exceeded said standards and has earned the Meets AYP designation. *Congratulations Titans!*
