

LISA SADLER

MICROBIOLOGY AND PATHOPHYSIOLOGY

sadlerl@friscoisd.org | 469-633-2885

Bio & Education

The human body amazes me! Everyday, I love teaching my students about how diseases can be detected, treated, and most importantly, prevented!

I graduated in 1993 with a degree in Health and Sport Sciences from University of Texas at Arlington. My masters degree was just finished this summer of 2009 from Concordia University. I have a husband, Marcus of three years, and three dogs. They all keep me busy!

Course Taught

I currently teach Microbiology and Pathophysiology at CTE. I also teach Anatomy and Physiology at Centennial High School and am the head golf coach there.

My conference is 1st period each day from 8:30-10:00.

Activities/Hobbies

- Golf and more golf.
