

Official SAT Online Course™

Dear FISD Students and Parents:

Frisco ISD has partnered with the test maker, **College Board**, to provide the **Official SAT Online Course™** to students in grades 9-12 free of charge. To enroll in this course, please contact your counselor to receive your SAT Online Course registration card and code.

The **Official SAT Online Course™** is the only online course developed by the test maker. It is personalized, comprehensive, and available 24 hours a day from any computer connected to the Internet. Students can use the course outline as a syllabus for the classroom or as a guide for self-paced study. The course's 18 interactive lessons cover the SAT's critical reading, writing, and mathematics sections, and the PSAT/NMSQT. The lessons feature interactive activities and multimedia content to create an engaging learning environment. Students gain valuable experience by taking ten practice tests, answering more than 600 practice questions, and responding to practice essay questions—all developed by the test maker. Students increase confidence by practicing with questions just like the ones they'll see on test day.

For those students who also take face-to-face test prep courses, such as the ones offered by **The Princeton Review**, this program serves as a follow-up that will allow you to continue practicing and preparing for the PSAT and SAT exams.
