

*The Texas Department of State Health Services under the Health and Safety Code requires all seventh graders to be screened for possible vision and hearing problems, Acanthosis Nigricans (means a light brown or black velvety, rough, or thickened area on the surface of the skin on the neck that may signal high insulin levels indicative of insulin resistance), height, and weight within the first semester of the school year. Scoggins seventh grade Health Screening day will be Thursday, November 19th, 2009.*

*Please contact the school nurse, Ronda Figueroa, for any questions. (469) 633-5158.  
Thank you.*
