### Bio & Education

My undergraduate degree is in Psychology from the University of Texas at Dallas. I began a career as a securities trader while working towards my MBA. I quickly realized that this was not where my heart was. I began teaching in Dallas ISD in 2000, where I also coached soccer and cross country. I moved to Jasper H.S. in Plano ISD in 2005 working towards an administrative position after I completed my Masters in Education Administration. I enjoyed the classroom and additional time with my daughter so I returned to teaching. In 2007, I came to Wakeland High School. I was and continue to be so excited to be a part of the development of Wakeland H.S. and the traditions that will be passed down to the students of Wakeland in the generations to come!

### Course Taught

I teach Pre-AP Algebra II and 11<sup>th</sup>/12<sup>th</sup> TAKS Lab. I have also taught Algebra I and Geometry, as well as TAKS Lab at the 9<sup>th</sup> and 10<sup>th</sup> grade levels. In my early years of teaching, I taught a few psychology and sociology courses as well.

### Activities/Hobbies

- Proud wife
- Mother of a sweet little girl
- Love to workout, play soccer, go to karaoke, and act silly!
- Enjoy participating in fitness oriented events, especially those that are charity related.
