Bio & Education

I have been teaching Math courses ranging from Pre-Algebra to Algebra II Honors and SAT Prep for 7 years in the public school system. Prior to teaching in the public school systems, I taught Computer Application Programs to adults in the corporate world. My original degree was actually a Bachelor of Arts in Criminology and Criminal Justice from the University of Texas at Arlington. This is my first year in Frisco ISD, and I am very excited to be a part of such a progressive and dynamic district. I look forward to an exciting & long career with teaching students in Fisd!
