Bio & Education

English language and literature has fascinated me since the first time I flipped through Seuss's *To Think That I Saw it on Mulberry Street*, and that same fascination has guided me through the pages of Shakespeare and countless others. As a child, I grew up listening to stories in Frisco classrooms, and my love of literature continued and deepened through my coursework at Austin College. After graduating with my B.A. in English, I continued on with my studies and received my Master of Arts in Teaching from the Austin Teacher Program the following year.

Activities/Hobbies

- Reading is both a pastime and a passion of mine, so I pick up a new book or an old favorite every chance I get.
- When I'm not reading, I love travelling, photography, art museums, and watching the Rangers or the Mavericks.
