

## **Survey of Student Interest**

Periodically, the Frisco ISD asks students to participate in a survey to gauge student interest in potential course offerings.

In the next two weeks, students in grades 8-10 will be participating in a survey regarding their interest in course offerings of Junior ROTC, Latin I, Mandarin Chinese I and on-line coursework.

Please encourage your student to thoughtfully answer these questions. There is no guarantee the district will be able to offer the courses in the near future, but student interest will determine how aggressively officials study the prospect of offering one or more of these additional courses/programs.
