Bio & Education

I lived in Minnesota for most of my life and graduated from the University of Minnesota in 2002 with B.A.'s in Journalism, Mathematics, and Statistics. After graduation, I worked in the restaurant industry for two years and then decided to go to graduate school. I completed two years of coursework at Iowa State and taught Introductory Statistics for two years. In 2007, I moved to Frisco and went through ACT Houston at Dallas, an alternative teaching program, to receive my certification. This is my third year at Wakeland and in Frisco ISD.

Course Taught

I teach AP Statistics at Wakeland High School on "A" days. My tutorial times for AP Statistics are Tuesday's from 4:00 - 4:30 and Wednesday's from 8:00 - 8:38 in D202.

I also teach Geometry on "A" and "B" days. We have a group tutorial schedule for all math classes every morning before school and every afternoon (except Friday's). I tutor Tuesday's from 4:00 - 4:30 and Wednesday's from 8:00 - 8:38 in D202.

Activities/Hobbies

- Working out.
- Watching the Mavs play on TV or at the AAC.
- Reading.

Wakeland High School
