2025-2026 DISTRICT IMPROVEMENT PLAN

Frisco ISD is committed to ongoing reflection and review of our District practices to better serve our students, staff, and community. In the spirit of continuous improvement, we have replaced the idea of a long-term strategic plan with a framework for ongoing strategic change that we call Dynamic Organizational Strategy.

Our annual District Improvement Plan begins with strategic goals developed in collaboration with stakeholders and adopted by the Board of Trustees. Those goals directly align to priorities within our future-ready framework, which represents a series of conditions we expect to exist for all students in FISD and serves as the foundation of our continuous improvement efforts.

Development of the District Improvement Plan

- **January to April** - District and campus needs assessments are conducted to identify areas for improvement in the upcoming school year. As a part of the needs assessment process, the District Advisory Council provides recommendations for improvement.
- **May -** Board holds a strategic planning workshop to develop priorities for the upcoming year based on feedback from campuses and stakeholders
- **June -** Public feedback sought on strategic goals, followed by formal adoption
- **June - August -** District leaders develop action plans for each goal within the District Improvement Plan, while campus leaders develop their Campus Improvement Plans
- **September/October -** Board adopts the individual Campus Improvement Plans
- **September - May -** The District and Campus Improvement Plans are carried out, and success is measured through our Local Accountability System

District-Level Planning Committee

FISD has adopted a strategic change model for navigating the continuous improvement process. Stakeholder engagement at all levels through two-way communication is a critical component of continuous improvement and is central to FISD's change process. Stakeholders hold the District accountable through our Local Accountability System.

The District Advisory Council (DAC) serves as the district-level planning committee, helping to develop, evaluate, and revise the District Improvement Plan. The DAC serves in an advisory capacity to the FISD School Board and administration by establishing and reviewing District-wide initiatives, educational goals, performance objectives, and major District-wide classroom instructional programs. They also provide guidance on recommendations for district innovations under FISD's District of Innovation designation.

Local Accountability System

Frisco ISD's local accountability system is based on the premise that schools exist to serve students, their parents, and their communities, and that accountability should first align with this purpose. FISD's local accountability system recognizes and reports on educational outcomes above and beyond standardized testing by providing information to schools and communities about overall effectiveness through the lens of the Future-Ready Framework. The District Accountability Report also includes the outcomes of the goals adopted in the District Improvement Plan.

Signaling & Goals

Signaling is our primary communication tool in a forward-facing local accountability system. As part of our Dynamic Organizational Strategy, we use signals to visually represent the time, energy, and resources dedicated to improvement in each Future-Ready Focus Area throughout the year. The signal is designed to help both internal and external stakeholders better understand our goals and the progress toward achieving those goals.

Our District Improvement Plan contains one of four initial signals for each Future-Ready Focus Area. These initial signals are designed to represent a simple, straightforward expression of the work that will occur across the district throughout the school year.

Strategic goals are developed for each major or minor change signaled in the District Improvement Plan. These goals, once approved by the School Board, will be supported by district-wide action plans. The outcomes of each goal in this District Improvement Plan will be reported in the 2025 District Accountability Report.

Initial Signals

Maintain - We will continue the work already underway and do not plan to make changes at this time.

Maintain but Consider Change - Change may be warranted in the future, and data will continue to be evaluated

Minor Change - A change is under way that can generally be completed within a year and does not require a significant investment of resources (time, energy, or money)

Major Change - A change is under way that may take longer than a year to accomplish or requires a significant investment of resources (time, energy, or money)

Future-Ready Framework

Frisco ISD's future-ready framework represents a series of conditions we expect to exist for all students in Frisco ISD. The framework is the foundation of the District's continuous improvement efforts and local accountability system, and it guides our work in developing future-ready learners.

At its core, the framework focuses on the long-term growth, development, and success of the whole child. It emphasizes a school-wide approach to ensuring students are healthy, safe, engaged, supported, and challenged.

Student Impact: Future-Ready Learners

The future-ready framework enables us to prepare students for success in futures they create. When all conditions within the framework are met, students are not only academically prepared for their futures but also possess a set of skills that enable them to embrace challenges, collaborate, innovate, communicate, contribute, and respond to whatever their future holds. The future-ready learner profile further defines these characteristics.

Student Support: Future-Ready Educators

Frisco ISD educators are committed to the District's vision of empowering students to pursue their passion and purpose. The future-ready educator profile defines the characteristics of teachers and staff who create future-ready learning experiences for our students.

Educator Support: Future-Ready Leaders

Frisco ISD leaders cultivate an environment in which the conditions necessary for a future-ready framework exist. The future-ready leader profile outlines the characteristics of FISD's leaders and administrators that foster a future-ready mindset.

2025-2026
CAMPUS IMPROVEMENT PLANS

Frisco ISD is committed to ongoing reflection and review of our District practices to better serve our students, staff, and community. In the spirit of continuous improvement, we have replaced the idea of a long-term strategic plan with a framework for ongoing strategic change that we call Dynamic Organizational Strategy.

The Campus Improvement Plan Cycle

- **January to June** - Campus needs assessments are conducted to identify areas for improvement in the upcoming school year. As a part of the needs assessment process, our Campus Improvement Team provides recommendations for improvement.
- **June to September** - Campus leaders set goals based on needs assessment feedback and year-end data.
- **October** - The School Board formally adopts the Campus Improvement Plan for each campus.
- **September to May** - The Campus Improvement Plan is carried out, and success is measured through our Local Accountability System.

Campus Improvement Teams

FISD has adopted a strategic change model for navigating the continuous improvement process. Stakeholder engagement at all levels through two-way communication is a critical component of continuous improvement and is central to FISD's change process. Stakeholders hold the District and campuses accountable through our Local Accountability System.

Campus Improvement Teams serve as the campus-level planning committees that help principals and other campus leaders develop, evaluate, and revise the Campus Improvement Plans. Campus Improvement Teams include teachers, campus-based staff, district-level professionals, parents, community members, and business representatives. Campus Improvement Teams ensure effective planning and site-based decision-making occur to direct and support improvement for all students.

Local Accountability System

Frisco ISD's local accountability system is based upon the premise that schools exist to serve students, their parents, and their communities, and that accountability should first align with that purpose. Our annual Campus Accountability Reports recognize and report on educational outcomes that extend beyond standardized testing, providing our community with information about overall effectiveness through the lens of the Future-Ready Framework. The Campus Accountability Report also includes the outcomes of the goals adopted in the Campus Improvement Plan.

Signaling & Goals

Signaling is our primary communication tool in a forward-facing local accountability system. As part of our Dynamic Organizational Strategy, we use signals to visually represent the time, energy, and resources dedicated to improvement in each Future-Ready Focus Area throughout the year. The signal is designed to help both internal and external stakeholders better understand our goals and the progress toward achieving those goals.

Our Campus Improvement Plans contain one of four initial signals for each Future-Ready Focus Area. These initial signals are designed to represent a simple, straightforward expression of the work that will occur on campuses throughout the school year.

Strategic goals are developed for each major or minor change signaled in the Campus Improvement Plan. These goals, once approved by the School Board, will be supported by campus-wide action plans. The outcomes of each goal in this Campus Improvement Plan will be reported in our 2025 Campus Accountability Reports.

Initial Signals

- **Maintain** - We will continue the work already underway and do not plan to make changes at this time.
- **Maintain but Consider Change** - Change may be warranted in the future, and data will continue to be evaluated
- **Minor Change** - A change is under way that can generally be completed within a year and does not require a significant investment of resources (time, energy, or money)
- **Major Change** - A change is under way that may take longer than a year to accomplish or requires a significant investment of resources (time, energy, or money)

Future-Ready Framework

Frisco ISD's future-ready framework represents a series of conditions we expect to exist for all students in FISD. The framework serves as the foundation of the District's continuous improvement efforts and local accountability system, guiding our work in developing future-ready learners. At its core, the framework focuses on the long-term growth, development, and success of the whole child. It emphasizes a school-wide approach to ensuring students are healthy, safe, engaged, supported, and challenged. Key Question 1: Do we solicit feedback and partner with all stakeholders in an effort to meet school improvement needs?

Initial Status: Minor Change

Goal 1 Details	Reviews			
	Formative			Summative
	Nov	Feb	June	June
Goal 1: By the end of the current school year, Carroll Elementary will enhance parent engagement by strengthening its framework for consistent communication, refine the use of communication tools, and increasing parent feedback and input. **Evidence of Success:** The implementation of a comprehensive communication plan, aligned events calendar, and multilingual messaging systems will significantly improve family engagement at Carroll Elementary. Parent participation in learning sessions and feedback opportunities is expected to increase, with survey data projected to show greater awareness of academic expectations and school initiatives. Simplified, translated TEKS guides and targeted parent academies will empower families to better support student learning at home. Regular feedback loops, tied directly to campus goals, will lead to more responsive planning and strengthen trust between the school and community. **Staff Responsible:** Principal; Assistant Principal; Counselor; Teachers **Problem Statements:** Positive Culture 1				

 No Progress Accomplished Continue/Modify Discontinue

Strategy 1: Create and utilize a comprehensive communication plan in order to orgnize dates and times for communication with targeted audiences in order to refine communications and ensure timeliness of communications.

Resources: Google Docs; Communication Platforms

Professional Learning: None.

Strategy 2: Develop and maintain an events calendar that strategically aligns parent engagement opportunities--such as feedback sessions and campus improvement discussions--with student performances and school-wide events to maximize participation and input.

Strategy 3: Develop and utilize simplified, translated TEKS guides and grade-level overviews for families.

Strategy 4: Offer regular parent academies or learning sessions focused on academic and SEL support at home.

Strategy 5: Continue to implement multilingual communication platforms and consistent two-way messaging systems.

Strategy 6: Conduct regular family feedback surveys tied to campus improvement goals, and publish response actions.

Key Question 1 Problem Statements:

Positive Culture
Problem Statement 1: Carroll Elementary faces challenges in engaging families to support learning at home. Many parents are unfamiliar with instructional methods, and language barriers limit involvement. Although communication systems are in place, efforts to gather parent input on school improvement have had limited success. **Root Cause**: Parents lack familiarity with instructional methods and grade-level expectations. Language and cultural barriers limit effective engagement. Communication tools are underutilized for two-way interaction. Parent input efforts have not effectively reached or engaged all families.

Focus Area 3: Guaranteed and Viable Curriculum

Key Question 3: Are all learners demonstrating grade-level achievement?

Initial Status: Minor Change

Goal 1 Details	Reviews

	Nov	Feb	June	June
Goal 1: Carroll Elementary will utilize and/or refine campus systems for progress monitoring, targeted interventions, and personalized support so that by the end of the academic year, all students show at least a year's worth of growth in all relevant subject area assessments. **Evidence of Success:** Carroll Elementary will strengthen its academic systems through the strategic use of data, targeted instruction, and aligned supports. MAP assessment data will be routinely analyzed in PLCs to identify student needs and guide differentiated instruction, while Title-funded tutors will provide targeted small-group support in reading and math. Tools like Storyworks and Imagine Math will enhance literacy and numeracy through engaging, personalized instruction. Collaboration with a literacy consultant will strengthen Tier 1 instruction through coaching and professional development, leading to more effective classroom practices. Vertical team meetings will ensure alignment of essential standards, while updated cluster assessments will reflect instructional rigor and support real-time progress monitoring. Structured data protocols and academic profiles will guide instructional planning, interventions, and end-of-year placement decisions. Professional development on data use will build teacher capacity, and a newcomer onboarding plan will ensure appropriate academic and emotional support for students with interrupted schooling. As a result, all students will be better supported to make at least one year of academic growth in reading and math. **Staff Responsible:** Principal; Assistant Principal; teachers; Instructional Coaches **Problem Statements:** Guaranteed and Viable Curriculum 1				

 No Progress Accomplished Continue/Modify Discontinue

Strategy 1: Leverage MAP assessment data to monitor student progress, identify learning gaps, and guide differentiated instruction through regular data analysis in PLCs.

Strategy 2: Utilize campus-based Title tutors to provide targeted, small-group instruction in reading and math for students performing below grade level, based on MAP and classroom data.

Strategy 3: Incorporate Storyworks into literacy instruction to enhance reading comprehension, vocabulary, and critical thinking skills through engaging,

Key Question 3 Problem Statements:

Guaranteed and Viable Curriculum
Problem Statement 1: Carroll Elementary lacks consistent, vertically aligned systems to monitor progress, guide interventions, and support academic growth. Many students, especially newcomers, enter below grade level, and gaps in assessments and vertical planning hinder teachers' ability to deliver targeted, responsive instruction. **Root Cause**: Newcomer students missed foundational instruction in early grades due to gaps in formal education. Lack of consistent vertical alignment discussions and documented plans across grade levels. Summative math assessments are infrequent and not aligned to current instructional rigor.

Goal 1 Problem Statements:

Learning Organization
Problem Statement 1: While our attendance at community events has increased in the past 2 years, we are still only reaching 1/2-1/3 of our student/family population. This shows a need to focus on parent engagement through communication & overcoming barriers to engagement with our community. **Root Cause**: : A lot of single-parent homes, both parents working evening shifts, some facing challenges with transportation, childcare, financial means to purchase books, food, etc at certain events.
Problem Statement 2: While our student engagement in future ready learning has increased, based on survey data, there is still a continued need to deepen our staff's understanding of future ready learning & implementation of hands-on, highly engaging classroom activities as well as provided transformation and immersive experiences within their classrooms and outside of provided transformation rooms. **Root Cause**: Depth of understanding of what the application looks like for learners, confidence of what each descriptor means in translation to the learning, time factors during planning as well as classroom instruction time.
Problem Statement 3: While 86% of our students made a year's growth in reading, we still need to support the 14% that are not making expected progress in reading. **Root Cause** : Underlying factors, possible growth in instructional strategies used by different programs, lack of or inability to provide parent support at home to support continued growth. It could also be that students with individualized plans are not receiving enough exposure to grade level TEKS as they should be to close the achievement gaps.

Strategy 3: Grade-level teams will collaborate vertically to align practices that promote student goal-setting, progress monitoring, and ownership of learning.

Resources: Vertical committee work, Grade level curriculum resources, grade level data

Professional Learning: Provide training for teachers on effective student goal-setting, progress monitoring, and reflection strategies. Facilitate regular vertical team meetings where teachers align practices, share successful approaches, and plan consistent systems that encourage student ownership across grade levels. Support teachers by providing discussion protocols, data analysis tools, and collaborative planning time to ensure productive vertical conversations. Offer coaching and resources to help teachers translate these discussions into classroom practices that enhance student learning and ownership.

Communication Plan: The communication plan ensures staff are informed and engaged in vertical team discussions to promote student ownership. It starts with a clear launch message, followed by regular updates sharing tips and successes. Teachers receive support through agendas and tools before meetings, and their feedback is gathered to celebrate progress and improve practices throughout the year.

Goal 1: By May 2026, all Rogers Elementary teachers will implement instructional practices that reflect student voice and choice by conducting a minimum of two academic conferences per student per grading period. These conferences will be documented and used to inform differentiated instruction and support the development of students' individual strengths, interests, and goals. Behavior changes among students and teachers will transform the classroom experience into one that is more purposeful, personalized, and empowering for everyone. **Evidence of Success:** Student Conferencing: - Every teacher conducts at least two academic conferences per student each grading period (tracked using a schoolwide documentation system such as a tracker, log, or digital form). - Conferences are student-centered, focusing on academic progress, interests, and personal goals. Use of Conferencing Data: - Teachers use information from conferences to inform and adjust instruction (e.g., small group plans, station rotations, student goal setting, choice boards). - Evidence of this alignment is observable in lesson plans, small group rosters, or classroom walk-throughs. Documentation and Reflection: - Teachers maintain updated records of student conferences. - Grade-level teams reflect on conferencing impact during at least one PLC per grading period (with discussion protocols or templates provided). Student Outcomes: - Students can articulate their academic goals and how they are working toward them. - Student work and/or progress monitoring data show evidence of growth aligned to individualized goals. Administrator Calibration - Instructional leaders will review samples of conference records and observe student ownership practices during classroom observations to ensure fidelity across classrooms. **Staff Responsible:** - Teachers - Administration - Instructional Coach, Language Coach, & Digital Learning Coach

Strategy 1: Establish a structured system for student-teacher academic conferences that emphasizes goal setting, feedback, and student reflection.

Provide teachers with professional learning on how to conduct effective academic conferences that amplify student voice (e.g., using open-ended questions, active listening, and goal-setting frameworks).

Develop and share a campuswide conference template or toolkit that includes guiding questions, reflection prompts, and a simple documentation form.

Integrate student goal sheets or digital portfolios where students record their strengths, challenges, and progress after each conference.

Create protected time within the instructional schedule for teachers to conduct conferences consistently without sacrificing whole-class learning.

Monitor implementation through spot checks of documentation, PLC reflections, and teacher/student feedback on the conference process.

Resources: - Student goal-conferencing template provided to teachers
- sample of small group schedule with student conferences built in daily for reading/math
- student goal-getting stickers, champion posters/ribbons actively in use in all classrooms

Professional Learning: - Team Leaders received the goal-setting template and PD in July 2025
- All staff will watch a model student/teacher goal-setting conference by September 2025

Teachers will document at least one feedback loop per unit to support collaborative planning and instructional adjustments. Walkthroughs will include feedback-related look-fors, and we will strengthen communication with families by sharing grading tools and feedback strategies. For teachers not in PLCs, peer partnerships will ensure everyone has space to plan and reflect on student learning. By May 2026, all teachers will implement at least one feedback loop per unit to support student mastery. Core PLCs will include a 10-minute weekly "feedback focus" to review student work and plan strategies, while non-PLC teachers will engage in the same process individually or with a peer. **Staff Responsible:** Principal, Assistant Principals, Instructional Coaches, and teachers **Problem Statements:** Differentiated Instruction and Assessment 1				

No Progress Accomplished Continue/Modify Discontinue

Key Question 1 Problem Statements:

Differentiated Instruction and Assessment
Problem Statement 1: Campus performance remains high, student growth is inconsistent across content areas, with notable data in 7th grade RLA Meets and Masters performance and lower progress percentages in Math compared to RLA. Students and parents report that feedback is helpful, suggesting that current feedback practices need to be timely, clear, and actionable to inform instructional adjustments to grow students **Root Cause**: Feedback is inconsistent across classrooms, often limited to gradebook entries or rubric postings without built-in opportunities for reflection or reteach. Planning time does not always include student work analysis to design targeted feedback, limiting real-time instructional adjustments and students' ability to act on feedback.

Goal 1: We will cultivate a positive, student-centered culture that recognizes effort, encourages responsibility, and motivates students to engage meaningfully in school life through refined PBIS systems and incentive-based supports. **Evidence of Success:** To support a positive, student-centered culture, we will reinforce PBIS and CHAMPS expectations consistently and align incentives to effort, growth, and positive behavior. Staff will use clear routines to acknowledge students, while whole child practices like will build strong relationships. We'll "level up" student voice through leadership roles and feedback opportunities, engage families by sharing celebrations, and monitor culture data regularly to guide adjustments and celebrate progress. By May 2026, Pearson Middle School will strengthen a positive, student-centered culture by refining PBIS systems and consistent incentive-based supports, resulting in a 10% increase in students reporting they feel motivated and engaged in school life on the spring survey and a reduction in Tier 1 behavior referrals by 15% compared to the 2024-2025 school year. **Problem Statements:** Positive Culture 1				

No Progress Accomplished Continue/Modify Discontinue

Key Question 1 Problem Statements:

Positive Culture
Problem Statement 1: Pearson Middle School has strong systems that create a welcoming environment and support students' educational, social, behavioral, and emotional needs. Survey feedback suggests that with slight refinements in areas such as peer respect, discipline fairness, and consistency in emotional support, we can ensure every student experiences these supports at their fullest potential. **Root Cause**: Differences in how practices are applied across classrooms can affect students' experience of positive culture. Strengthening consistency, communication, and proactive supports--while expanding student voice--will build on our strong foundation and ensure every student benefits fully.

Report of 2022-2023 High School Graduates' Enrollment and Academic Performance in Texas Public Higher Education in FY 2024

Texas statute requires every school district to include, with their performance report, information received under Texas Education Code §51.403(e). This information, provided to districts from the Texas Higher Education Coordinating Board (THECB), reports on student performance in postsecondary institutions during the first year enrolled after graduation from high school.

Student performance is measured by the Grade Point Average (GPA) earned by 2022-2023 high school graduates who attended public four-year and two-year higher education in FY 2024. The data is presented alphabetically for each county, school district and high school. The bookmarks can be used to select the first letter of a county. Then the user can scroll down to the desired county, school district and high school.

For each student, the grade points and college-level semester credit hours earned by a student in fall 2023, spring 2024, and summer 2024 are added together and averaged to determine the GPA. These GPAs are accumulated in a range of five categories from < 2.0 to > 3.5. If a GPA could not be calculated for some reason, that student is placed in the "Unknown" column. GPA data is only available for students attending public higher education institutions in Texas. If a high school has fewer than five students attending four-year or two-year public higher education institutions, the number of students is shown but no GPA breakout is given. If a student attended both a four-year and a two-year institution in FY 2024, the student's GPA is shown in the type of institution where the most semester credit hours were earned.

The number of students located at Texas independent institutions is presented. Also shown are "not trackable" graduates, those with non-standard ID numbers that cannot be used to match student identifiers at Texas higher education institutions. "Not found" graduates have standard ID numbers but were not located in FY 2024 at Texas higher education institutions. They might have enrolled in higher education outside of Texas.

No data is given for high schools with 25 or fewer graduates.

Because the statute calls for data on the first year enrolled after graduation, the level of the institution attended by students in this report may not match that given in THECB's high school to college report at http://www.txhighereddata.org/Interactive/HSCollLink. That report shows where students attended in the fall semester after their high school graduation year. This report attributes students to the level of institution where they earned the most semester credit hours during the whole academic year, not just the fall semester.

Please note: In May 2012 the 2006-2007, 2007-2008, and 2008-2009 versions of the *Report of High School Graduates' Enrollment and Academic Performance in Texas Public Higher Education* were updated to reflect a minor correction in how the GPA data are distributed across ranges.

STAAR

STAAR: A comprehensive testing program for public school students in grades 3-8 or high school courses with end-of-course (EOC) assessments. The STAAR program is designed to measure to what extent a student has learned, understood, and is able to apply the concepts and skills expected at each grade level or after completing each course for which an EOC assessment exists. Each STAAR assessment is linked directly to the Texas Essential Knowledge and Skills (TEKS). The TEKS are the state-mandated content standards that describe what a student should know and be able to do upon completion of a course. For more information on the TEKS, see the *Texas Essential Knowledge and Skills* website at http://tea.texas.gov/curriculum/teks/.

Bilingual Education/English as a Second Language (Current EB Students/EL) (2024-25)

Important Program Information:

Bilingual Education (BE): Dual-language program that enables emergent bilingual (EB) students/English learners (ELs) to become proficient in listening, speaking, reading, and writing in the English language through the development of literacy and academic skills in the primary language and English. This category includes the following:

BE Transitional Early Exit. Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than two or later than five years after the student enrolls in school.

BE Transitional Late Exit. Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school.

BE Dual Two-Way. Bilingual/biliteracy program model in which students identified as EB students/ELs are integrated with non-EB/non-EL students and are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic

content in English and another language with at least half of the instruction delivered in the non-English program language for the duration of the program.

BE *Dual One-Way*. Bilingual/biliteracy program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic content in the students' primary language as well as English, with at least half of the instruction delivered in the students' primary language for the duration of the program.

English as a Second Language (ESL): An English acquisition program that enables EB students/ELs to become proficient in listening, speaking, reading, and writing in the English language through the integrated use of second language acquisition methods. This category includes the following:

ESL Content-Based. An English acquisition program that serves students identified as EB students/ELs through English instruction by a teacher appropriately certified in ESL under TEC, §29.061(c), through English language arts and reading, mathematics, science, and social studies.

ESL Pull-*Out*. An English program that serves students identified as EB students/ELs through English instruction provided by an appropriately certified ESL teacher under the TEC, §29.061(c), through English language arts and reading. Instruction shall be provided by the ESL teacher in a pull-out or inclusionary delivery model.

Alternative Language Program (ALP): An alternative language program provided to EB students/ELs for whom the LEA) does not have the appropriately certified teachers for the required bilingual education or ESL program for the current school year. This category includes the following:

ALP Bilingual *(Exception)*. An alternative language program to the required bilingual education (BE) program approved by the TEA for the current school year due to the LEA's submission of a bilingual education exception application.

*ALP ESL (*Waiver*)*. An alternative language program to the required English as a second language (ESL) program approved by the TEA for the current school year due to the LEA's submission of an ESL waiver application.

Emergent Bilingual (EB) Students/English Learners (EL): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. As a result of the 87th Texas Legislature, the term "emergent bilingual student" replaced the term of "limited English proficient (LEP) student" used in the Texas Education Code (TEC), Chapter 29, Subchapter B, and thus, will be changing the term of "English learner (EL)" used in 19 TAC Chapter 89, Subchapter BB. These terms describe the same group of Texas students. In the revised Texas Education Data Standards (TEDS), the terms of "emergent bilingual" and "English learner" have been bridged as EB/EL. The term "English learner" is still used in federal regulations and guidance. This category includes:

EB/EL with Parental Denial. Students identified as EB students/ELs whose parents have denied all bilingual and ESL program services.

Comprehensive Texas Performance Reporting System (TPRS) Glossary

Never EB/EL. Students who have never been identified as EB students/ELs (non-EB students/non-ELs).

Total EB/EL (Current). Students currently identified as EB students/ELs, including those served in a standard or alternative bilingual or ESL program as well as those with a parental denial of services.

Monitored & Former EB/EL. Students who were once identified as EB students/ELs but have reclassified as English proficient, including students within their four years of state and federal monitoring and those beyond monitoring years.

  - STAAR Assessments (STAAR and STAAR Alternate 2) with score codes "A" or "O" that do NOT have a corresponding TELPAS or TELPAS Alternate assessment with a score code of "S."
  - STAAR Alternate 2 assessments with a score code of "N."
  - Answer documents of students who are an Emergent Bilingual/English learner (EB/EL) who has been in school in the U.S. for one year.
  - Other exclusions specified in the 2025 Accountability Manual — Appendix G.

Comprehensive Texas Performance Reporting System (TPRS) Glossary

Not Tested

- Assessments that are not considered in the participation rate include:
    - Absent: Assessments with a score code of "A."
    - Other: Assessments with a score code of "O."
    - Accelerated Testers: Accelerated testers who did not take an SAT/ACT assessment.

The denominator for participation is the sum of these five categories: Included in Accountability, Mobile, Other Exclusions, and Not Tested (Absent and Other). *STAAR Participation Rate* is rounded to a whole number. For example, 94.49% is rounded to 94%. Small values may show as zero: 0.4% is rounded to 0%, and 0.6% is rounded to 1%.

Attendance and Graduation

Attendance, Graduation, and Dropout Rates

Attendance Rate: The percentage of days that students were present based on student attendance for the entire school year. Only students in grades 1-12 are included in the calculation.

$$\frac{\textbf{total number of days students in grades 1-12 were present during the 2023-24 school year}}{\textbf{total number of days students in grades 1-12 were in membership during the 2023-24 school year}}$$

(Data source: PEIMS 42400)

Chronic Absenteeism: The unduplicated number of K-12 students enrolled for at least 10 days and absent for 10 percent or more days. Chronic Absenteeism is calculated as follows:

$$\frac{\textbf{total number of K-12 students enrolled for at least 10 days and absent for 10 percent or more days during the 2023-24 school year}}{\textbf{total number of K-12 students enrolled for at least 10 days during the 2023-24 school year}}$$

(Data source: PEIMS 42400)

Annual Dropout Rate: The percentage of students who drop out of school during a school year. Annual dropout rates are shown for districts and campuses that serve grades 7-8 and/or 9-12. State law prohibits including a student who meets any of the following criteria from campus and district annual dropout rate calculations:

- Is ordered by a court to attend a high school equivalency certificate program but has not earned a high school equivalency certificate
- Was previously reported to the state as a dropout (previous dropout/previous dropout exclusions do not apply to completion measure calculations for AEA campuses)
- Was in attendance but not in membership for purposes of average daily attendance (i.e., students for whom school districts are not receiving state Foundation School Program [FSP] funds)
- Was initially enrolled in a school in the United States in any grade 7 through 12 as an unschooled refugee or asylee as defined by TEC §39.027(a-1)
- Attends a district exclusively as a function of having been detained at a county detention facility and is not otherwise a student of the district in which the facility is located or is being provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility
- Is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult
- Is a student who has suffered a condition, injury, or illness that requires substantial medical care and leaves the student unable to attend school and assigned to a medical or residential treatment facility

- Is a student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district
- Is at least 18 years of age as of September 1 and has satisfied the credit requirements for high school graduation; has not completed his or her individualized education program (IEP); and is enrolled and receiving IEP services
- Is a student who (a) is at least 18 years of age and under 26 years of age; (b) has not been previously reported as a dropout; and (c) has not been enrolled in school during the previous nine months before enrolling in a high school equivalency program, a dropout recovery school, or an adult education program provided under a high school diploma and industry certification charter school program (previous dropout/previous dropout exclusions do not apply to completion measure calculations for AEA campuses)

Annual Dropout Rate (Gr 7-8). This includes only grades 7 and 8. It is calculated as follows:

$$\frac{\textbf{number of dropouts in grades 7 and 8 during the 2023-24 school year}}{\textbf{number of students in grades 7 and 8 in attendance at any time during the 2023-24 school year}}$$

Annual Dropout Rate (Gr 9-12). This includes grades 9 through 12. It is calculated as follows:

$$\frac{\textbf{number of dropouts in grades 9-12 during the 2023-24 school year}}{\textbf{number of students in grades 9-12 in attendance at any time during the 2023-24 school year}}$$

Both annual dropout rates appear on campus, district, region, and state TAPRs. The state and region annual dropout rates that are reported on district and campus TAPRs, however, are calculated without the exclusions required for campus and district calculations.

Note that with all annual dropout rate calculations, a cumulative count of students is used in the denominator. This method for calculating the dropout rate neutralizes the effect of mobility by including in the denominator every student ever reported in attendance at the district or campus throughout the school year, regardless of length of enrollment. For a more complete description of dropout rates and exclusions, see the Secondary School Completion and Dropouts in Texas Public Schools reports, available on the TEA website at Completion, Graduation, and Dropout | Texas Education Agency.

For detailed information on data sources, see Appendix H in the *2025 Accountability Manual*. *(Data source: PEIMS 40203, 40110, 42400, and 42500)*

Longitudinal Rates: The status of a group (cohort) of students after four years in high school (*4-Year Longitudinal Rate*), after five years in high school (*5-Year Extended Longitudinal Rate*), or after six years in high school (*6-Year Extended Longitudinal Rate*).

For the *4-Year Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2020-21. They are followed through their expected graduation with the Class of 2024.

Comprehensive Texas Performance Reporting System (TPRS) Glossary

For the *5-Year Extended Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2019-20. They are followed for five years and included if they graduated within a year after their expected graduation with the Class of 2023.

For the *6-Year Extended Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2018-19. They are followed for six years and included if they graduated within two years after their expected graduation with the Class of 2022.

Additional Information on Cohorts:

A student transfers into a campus, district, or state cohort when he or she moves into the cohort from another high school in Texas, from another district in Texas, or from out of state.

A student transfers out of a campus or district cohort when he or she moves to another public high school in Texas or moves to another district in Texas. Note that these students are transferred into the cohort of the high school or district to which they moved. There are also students who move out of state or out of the country and students who transfer to private schools or who are home-schooled. These types of transfer students cannot be tracked and are not included in longitudinal rate calculations.

A student does not change cohorts if he or she repeats or skips a grade. A student who begins with the 2020-21 ninth-grade cohort remains with that cohort. A student who started the ninth grade in 2020-21 but takes 5 years to graduate (i.e., graduates in May 2025) is still part of the 2024 cohort; he or she is not switched to the 2025 cohort. This student would be considered a continuing student and counted as part of the Continued HS number for the Class of 2024. This is also true for the five-year and six-year extended longitudinal cohorts.

There are four student outcomes used in computing each longitudinal rate:

4-Year Longitudinal Rate

(1) *Graduated:* The percentage who received their high school diploma in four years or fewer by August 31, 2024 for the 2024 cohort.

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}}{\textbf{number of students in the 2024 cohort*}}$$

(2) *Received TxCHSE:* For the 2024 cohort, the percentage who received a Texas high school equivalency certificate by August 31, 2024. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a TxCHSE by August 31, 2024}}{\textbf{number of students in the 2024 cohort*}}$$

Comprehensive Texas Performance Reporting System (TPRS) Glossary

(3) *Continued High School:* The percentage of the 2024 cohort still enrolled as students in the fall of the 2024-25 school year. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who were enrolled in the fall of the 2024-25 school year}}{\textbf{number of students in the 2024 cohort*}}$$

(4) *Dropped Out:* The percentage of the 2024 cohort who dropped out and did not return by the fall of the 2024-25 school year. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who dropped out before fall of the 2024-25 school year}}{\textbf{number of students in the 2024 cohort*}}$$

(5) *Graduates & TxCHSE:* The percentage of graduates and TxCHSE recipients in the 2024 cohort. It is calculated as follows:

$$\frac{\textbf{number of students from the 2024 cohort who received a high school diploma by August 31, 2024 plus number of students from the cohort who received a TxCHSE by August 31, 2024}}{\textbf{number of students in the 2024 cohort*}}$$

(6) *Graduates, TxCHSE & Continuers:* The percentage of graduates, TxCHSE recipients, and continuers in the 2024 cohort. It is calculated as follows:

$$\frac{\begin{array}{c}\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}\\ \textbf{plus}\\ \textbf{number of students from the cohort who received a TxCHSE by August 31, 2024}\\ \textbf{plus}\\ \textbf{number of students from the cohort who were enrolled in the fall of the 2024-25 school year}\end{array}}{\textbf{number of students in the 2024 cohort*}}$$

The graduation rate calculation is modified to credit AEA campuses for graduates, continuing students (continuers), TxCHSE recipients, and previous dropouts who complete. The completion rate component includes the four-year rates.

number of students in the 2022 cohort*

The graduation rate calculation is modified to credit AEA campuses for graduates, continuing students (continuers), TxCHSE recipients, and previous dropouts who complete. The completion rate component includes the six-year rates.

* The cohort in the denominator of the formulas shown above includes those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with the leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, 88, 89 or 90. See *Annual Dropout Rate* for a list of all the exclusions mandated by state statute for districts and campuses.

The graduation, continuation, TxCHSE recipient, and dropout rates sum to 100% (some totals may not equal exactly 100% due to rounding). Students served through special education who graduate with an individualized education program (IEP) are included as graduates.

Additional Information about Federal Graduation Rates

In addition to the detailed breakdown of the four-, five- and six-year longitudinal rates, the district and campus reports show federal graduation rates for the following:

(1) *4-Year Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2020-21. They are followed through their expected graduation with the Class of 2024. It is calculated as follows:

number of students from the cohort who received a high school diploma by August 31, 2024

number of students in the 2024 cohort**

(2) *5-Year Extended Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2019-20. They are followed for five years to see if they graduated within a year after their expected graduation with the Class of 2023. It is calculated as follows:

number of students from the cohort who received a high school diploma by August 31, 2024

number of students in the 2023 cohort**

(3) 6-*Year Extended Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2018-19. They are followed for six years to see if they graduated within two years after their expected graduation with the Class of 2022. It is calculated as follows:

number of students from the cohort who received a high school diploma by August 31, 2024

number of students in the 2022 cohort**

** The cohort in the denominators above include those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, or 90. Students with leaver codes 88 and 89 are included in the federal rates.

Comprehensive Texas Performance Reporting System (TPRS) Glossary

A student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district is excluded from district and campus graduation rates calculated for federal accountability purposes. Postsecondary Readiness

College, Career, and Military* Readiness (CCMR)

Please note, graduates who were not enrolled in a Texas public school in any of the preceding 4 years are excluded from data shown in the CCMR tab.

Annual graduates demonstrate college, career, or military readiness in any one of the following ways:

College Readiness

1) **Texas Success Initiative (TSI) Criteria:** Meet Texas Success Initiative (TSI) Criteria in RLA and Mathematics. A student meeting the TSI college readiness standards in both RLA and mathematics; specifically, meeting the college-ready criteria on the TSIA1 and/or TSIA2 assessment, SAT, ACT, or by successfully completing and earning credit for a college prep course as defined in TEC §28.014 and TEC §51.338, in both RLA and mathematics. The criteria for successful completion of a college prep course should be in alignment between an LEA and the partnering IHE(s). In accordance with TEC §51.338(e), upon successful completion of a college prep course, students earn a TSI exemption from the partnering IHE(s) in that content area. Students should only be reported as successfully completing a course if they have met TSI exemption requirements. The assessment results considered include TSIA1 and/or TSIA2 assessments through October 2024, SAT and ACT results through the July 2024 administration, and course completion data via TSDS PEIMS. See Appendix H for additional information. A student must meet the TSI requirement for both RLA and mathematics but does not necessarily need to meet them on the same assessment. For example, a student may meet the TSI criteria for college readiness in RLA on the SAT and complete and earn credit for a college prep course in mathematics. *(Data source: PEIMS 43415, THECB, College Board, and ACT, Inc.)*

2) **Earn Dual Course Credits:** A graduate completing and earning credit for at least three credit hours in ELA or mathematics or at least nine credit hours in any subject. *(Data source: PEIMS 43415)*

3) **Meet Criteria on Advanced Placement (AP)/International Baccalaureate (IB) Examination:** A graduate meeting the criterion score on an AP or IB examination in any subject area. Criterion score is 3 or more for AP and 4 or more for IB. *(Data source: College Board or IB)*

4) **Earn an Associate Degree:** A graduate earning an associate degree by August 31 immediately following high school graduation. *(Data source: PEIMS 40100)*

5) **Earn OnRamps Course Credits:** A graduate completing an OnRamps dual enrollment course and qualifying for at least three hours of university or college credit in any subject area. *(Data source: OnRamps program)*

6) **Graduates under an Advanced Diploma Plan and Identified as a current Special Education Student:** A graduate who is identified as receiving special education services during the year of graduation and whose graduation plan type is identified as a Recommended High School Plan (RHSP), Distinguished Achievement Plan (DAP), Foundation High School Plan with an Endorsement (FHSP-E), Foundation High School Plan with a Distinguished Level of Achievement (FHSP-DLA), or Texas First Early High School Completion Program (Texas First-DLA) (*Data source: PEIMS 40203 and 40110)*

Career/Military Readiness

7) **Earn an Industry-Based Certification (IBC):** A graduate earning an IBC under 19 TAC, §74.1003 and earned credit in a level 2 course or higher in an aligned Program of Study applies to the 2024 graduates. Alignment is determined by the IBC Crosswalk, which maps approved IBCs to their corresponding Programs of Study. The student must have earned the IBC associated with the Program of Study and also met the phase-in requirement. See Appendix J for a complete list of approved IBCs. The sunsetting IBC limit applied within the Student Achievement and School Progress, Part B: Relative Performance domains is not applied within Closing the Gaps. For prior graduating class IBC requirements please refer to "Chapter 2—Student Achievement Domain". *(Data source: PEIMS 40100)*

8) **Graduate with Completed IEP and Workforce Readiness:** A graduate receiving a graduation type code of 04, 05, 54, or 55 which indicates the student has completed his/her IEP and has either demonstrated self-employment with self-help skills to maintain employment or has demonstrated mastery of specific employability and self-help skills that do not require public school services. *(Data source: PEIMS 40203)*

9) **Graduate with Level I or Level II Certificate:** A graduate earning a level I or level II certificate in any workforce education area. *(Data source: THECB)*

10) ***Enlist in the Armed Forces** A graduate enlisting in the U.S. Army, Navy, Air Force, Coast Guard, Marines, Space Force. This includes Texas National Guard and Reserves for their respective services. *(Data source: Department of Defense (DoD) Form 4 Submission)*

Course completion information is reported by districts through the PEIMS after the close of the school year. For example, the values, expressed as percentages for grades 9-12, are calculated as follows: *(Data source: PEIMS 43415)*

$$\frac{\textbf{number of annual graduates eligible for free or reduced-price lunch or other public assistance}}{\textbf{number of annual graduates}}$$

Non-Economically Disadvantaged: Those annual graduates not eligible to participate in free or reduced-price lunch or to receive any other public assistance. This is the complementary count and percentage to Economically Disadvantaged.

Special Education: The count and percentage of annual graduates served by special education programs. Special Education annual graduates count towards either economically disadvantaged or non-economically disadvantaged in addition to the special education group. *(Data source: PEIMS 41163)*

Met Texas Success Initiative (TSI) Criteria: The count and percentage of annual graduates that met Texas Success Initiative (TSI) Criteria in RLA and Mathematics, specifically, meeting the college-ready criteria on the TSIA1 and/or TSIA2 assessment, SAT, or ACT. (*Data source: THECB, College Board, and ACT, Inc.)*

Met CCMR OB Criteria - College Ready: The count and percentage of annual graduates who demonstrated college readiness criteria by either (1) earning an associate degree by August 31, immediately following high school graduation or by (2) meeting TSI criteria, specifically, meeting the college-ready criteria on the TSIA1 and/or TSIA2 assessment, SAT, or ACT and enrolling at a postsecondary educational institution the fall semester immediately following high school graduation.

Met CCMR OB Criteria - Career Ready: The count and percentage of annual graduates who demonstrated career readiness criteria by meeting TSI criteria, specifically, meeting the college-ready criteria on the TSIA1 and/or TSIA2 assessment, SAT, or ACT and by either earning an IBC under 19 TAC, §74.1003, or earning a level I or level II certificate in any workforce education area.

Met CCMR OB Criteria - Military Ready: The count and percentage of annual graduates who demonstrated military readiness criteria by enlisting in the U.S. Armed Forces or Texas National Guard by December 31 immediately following high school graduation.

Met CCMR OB Criteria: The count and percentage of annual graduates that met either the college, career, or military readiness (CCMR) Outcome Bonus criteria.

Threshold: The count and percentage of annual graduates necessary to meet CCMR OB threshold before a monetary bonus is awarded for each additional graduate that meets CCMR OB criteria of the three cohorts-economically disadvantaged, non-economically disadvantaged, and special education.

Comprehensive Texas Performance Reporting System (TPRS) Glossary

CCMR OB Threshold Percentages by Cohort

Annual Graduates	CCMR OB Threshold
Economically Disadvantaged	11%
Non-Economically Disadvantaged	24%
Special Education	0%

For example, if there are 954 Economically Disadvantaged graduates, the threshold would be 954 *.11 or 104.94. For the purposes of this process, that is rounded down to 104. If there were 127 graduates that met CCMR, then 127-104 = 23 are above the threshold and a monetary bonus will be awarded for those 23. The process is the same for Non-Economically Disadvantaged graduates except that the number of graduates is multiplied by .24. For Special Education graduates, there is currently not a threshold so all graduates that meet would receive a bonus.

Met CCMR OB Criteria Above Threshold: The count and percentage of annual graduates that exceed the threshold. Districts are awarded a monetary bonus for each of these annual graduates.

Profile

Student Information (2024-25)

Please note, the Enrollment section of this report was added beginning with 2019-20. The definitions below describe the nuances between Membership and Enrollment. If comparing the data shown from this year's report to reports prior to 2019-2020, use the data displayed under Membership.

Enrollment: Students reported as enrolled as of the Fall PEIMS Snapshot.

Membership: Membership differs from enrollment as it does not include those students who are served for less than two hours per day. A student is in membership if he/she is enrolled and is either

- scheduled to attend at least two hours of instruction each school day or
- participating in an alternative attendance accounting program.

For example, the count of *Total Students* excludes students who attend a non-public school but receive some services, such as speech therapy-for less than two hours per day from their local school district.

Total Students: The total number of public school students who were reported at any grade from early childhood education through grade 12. *(Data source: PEIMS 40110)*

Students by Grade: The count of students in each grade divided by the total number of students. *(Data source: PEIMS 40110)*

Ethnic Distribution: The number and percentage of students who are identified as belonging to one of the following groups: African American, Hispanic, white, American Indian, Asian, Pacific Islander, and two or more races. *(Data source: PEIMS 40100, 30040, 30050, 30090)*

Male/Female: The number and percentage of students who are identified as male or female. *(Data source: PEIMS 40100)*

Economically Disadvantaged: The count and percentage of students eligible for free or reduced-price lunch or eligible for other public assistance.

$$\frac{\textbf{number of students eligible for free or reduced-price lunch or other public assistance}}{\textbf{total number of students}}$$

(Data source: PEIMS 40100)

Non-Educationally Disadvantaged: Those students not eligible to participate in free or reduced-price lunch or to receive any other public assistance. This is the complementary count and percentage to Economically Disadvantaged.

Section 504 Students: The count and percentage of students identified as receiving section 504 services. *(Data source: PEIMS 40110)*

Comprehensive Texas Performance Reporting System (TPRS) Glossary

Emergent Bilingual Students (EB)/English Learner (EL): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms "English Learner" (EL) and "Emergent Bilingual" (EB) are used interchangeably.

The percentage of EB students/ELs is calculated by dividing the number of EB students/ELs by the total number of students in the district or campus. Not all students identified as EB/ELs receive bilingual or English as a second language instruction. *(Data source: TELPAS file)*

Students with Disciplinary Placements: The count and percentage of students placed in alternative education programs under Chapter 37 of the Texas Education Code (Discipline; Law and Order). Districts report the disciplinary actions taken toward students who are removed from the classroom for at least one day. Although students can have multiple removals throughout the year, this measure counts students only once and includes only those whose removal results in a placement in a disciplinary alternative education program or juvenile justice alternative education program. It is calculated as follows:

$$\frac{\textbf{number of students with one or more disciplinary placements}}{\textbf{number of students who were in attendance at any time during the school year}}$$

For 2023-24, the following 19 disciplinary action codes are included as disciplinary placements: 02, 03, 04, 07, 08, 10, 12, 13, 14, 15, 51, 52, 53, 54, 55, 57, 59, 60, and 61. *(Data source: PEIMS 44425)*

Students with Dyslexia: The count and percentage of students identified with dyslexia. *(Data source: PEIMS 40100)*

Foster Care: The count and percentage of students identified as in the conservatorship of the Department of Family and Protective Services (DFPS). *(Data source: PEIMS 40100)*

Homeless: The count and percentage of students meeting the criteria defined by 42 U.S.C. Section 11434(a), the term "homeless children and youths" -

(A) individuals who lack a fixed, regular, and adequate nighttime residence [within the meaning of section 11302(a)(1)]; and

(B) includes -

(i) children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters;

(ii) children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings [within the meaning of section 11302(a)(2) (C)];

(iii) children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

(iv) migratory children (as such term is defined in section 6399 of title 20) who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described in clauses (i) through (iii). *(Data source: PEIMS 40100)*

Comprehensive Texas Performance Reporting System (TPRS) Glossary

Immigrant: The count and percentage of students identified under the definition found under Title III of the Elementary and Secondary Education Act (ESEA), where the term 'immigrant children and youth' is defined as, "individuals who are aged 3 through 21; were not born in any state; and have not been attending one or more schools in any one or more states for more than 3 full academic years." The term 'State' means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico. *(Data source: PEIMS 40100)*

Migrant: The count and percentage of students that meet the following criteria: Student is (ages 3-21), or the student's parent, spouse, or guardian is a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent, spouse, or guardian in order to obtain, temporary or seasonal employment in agricultural or fishing work: 1) has moved from one school district to another; or 2) resides in a school district of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity. *(Data source: PEIMS 40100)*

Title I: The count and percentage of students participating in a program authorized under Elementary and Secondary Education Act (ESEA), Title I, Part A of the Improving America's Schools Act. *(Data source: PEIMS 41461)*

Military Connected: The count and percentage of students who are dependents of an active duty or former member of the United States military, the Texas National Guard, or a reserve force of the United States military, or who are dependents of a member of the United States military, the Texas National Guard, or a reserve force of the United States military who was killed in the line of duty. *(Data source: PEIMS 40100)*

At-Risk: The count and percentage of students identified as being at risk of dropping out of school as defined by TEC §29.081(d) and (d-1).

$$\frac{\textbf{number of students in the 2024-25 school year considered as at risk}}{\textbf{total number of students}}$$

(Data source: PEIMS 40110)

Student by Instructional Program: The count and percentage of students served in programs and/or courses for special education, career and technical education, career and technical education (grades 9-12 only), bilingual/ESL education, or gifted and talented education. The percentages do not total to 100 because students may participate in more than one of these programs. (Data source: TSDS PEIMS 40110, 41163 and 41169)

Students with Disabilities by Type of Primary Disability: The count of students disaggregated by primary disability. The TAPR and Texas Performance Reporting System (TPRS) uses five categories of primary disability: Students with Intellectual Disabilities, Students with Physical Disabilities, Students with Autism, Students with Behavioral Disabilities, and Students with Non-Categorical Early Childhood. Additional information is provided below.

Students with Intellectual Disabilities (PEIMS disability codes 06, 08, 12, 13)

- 08-Learning Disability (LD)
- 12-Developmental Delay (DD)
- 13-Traumatic Brain Injury (TBI)

Students with Physical Disabilities (PEIMS disability codes 01, 03, 04, 05, 09)

- 01-Orthopedic Impairment (OI)

(Data source: PEIMS 41163)

Mobility: The count and percentage of students who have been in membership for less than 83 percent of the school year (i.e., missed six or more weeks).

$$\frac{\textbf{number of mobile students in 2023-24}}{\textbf{number of students who were in membership at any time during the 2023-24 school year}}$$

This rate is calculated at the state, region, district, and campus level and is disaggregated by race/ethnicity, economically disadvantaged status, special education status, and emergent bilingual status. The mobility rates shown are based on the count of mobile students identified at the campus level. The district mobility rate reflects school-to-school mobility within the same district or from outside the district. The region mobility rate reflects school-to-school mobility within the same region or from outside the region. *(Data source: PEIMS 42400)*

Attrition Rate: The percentage of students enrolled in fall 2023-24 who did not return to the same campus in the fall of 2024-25. This calculation is adjusted to account for the grade levels available to students at each campus as well as additional factors. For instance, students were excluded from the calculation if the campus in which they were enrolled in 2023-24 did not offer the next grade they were expected to move into in 2024-25 or if they were at a campus in 2023-24 that was no longer active in 2024-25. Students who were retained in grade, including those in Grade 12, remained in the calculation.

Comprehensive Texas Performance Reporting System (TPRS) Glossary

Some campuses may not receive an attrition rate because all of their students are excluded from the attrition denominator due to their subsequent grade level not being offered at that campus in 2024-25. Examples of such campuses are campuses that serve single grade levels or campuses that changed the grades offered in 2024-25. Attrition Rate is calculated as follows:

$$\frac{\textbf{number of students enrolled in fall 2023 - number of students who returned in fall 2024}}{\textbf{number of students enrolled in fall 2023}}$$

Aggregations of campus denominators and numerators are created for district, region and state levels, and rates for each of those levels are calculated from these sums.

Retention Rates by Grade*:* The percentage of students in Texas public schools who enrolled in fall 2024 in the same grade in which they were reported for the last six-week period of the prior school year (2023-24).

$$\frac{\textbf{number of students enrolled in the same grade from one school year to the next}}{\textbf{number of students enrolled from one school year who return the next year or who graduate}}$$

Special education retention rates are calculated and reported separately because local retention practices differ for students served by special education.

The TAPR and TPRS show retention rates only for grades K-9. Retention rates for all grades can be found in *Grade-Level Retention in Texas Public Schools* available from TEA*. (Data source: PEIMS 40110)*

Data Quality *(not on campus profile)*: The percentage of errors made by the district in the PEIMS Student Leaver Data.

Percent of Underreported Students. Underreported students are 7^{th}-12^{th} graders who were enrolled at any time during the prior year, who are not accounted for through district records or TEA processing in the current year, and for whom the district did not submit a leaver record. A district is required to submit a leaver record for any student served in grades 7-12 the previous year unless the student received a Texas high school equivalency certificate (TxCHSE) certificate by August 31, is a previous Texas public school graduate, moved to and enrolled in another Texas public school district, or returned to the district by the end of the school start window. (For 2023-24 the end of the school-start window was September 27, 2024.)

$$\frac{\textbf{number of underreported students}}{\textbf{number of students in grades 7-12 who were served in the district in the 2023-24 school year}}$$

(Data source: Texas High School Equivalency Certificate Information File; PEIMS 40100, 40110, 42400, and 42500)

Class Size Averages by Grade and Subject: The average class size by grade (elementary) or selected subjects (secondary classes).

For secondary classes, averages are determined by totaling the number of students served (in a subject at the campus) and dividing that sum by the count of classes for that subject.

Comprehensive Texas Performance Reporting System (TPRS) Glossary

For elementary classes, the average is determined based on the instructional model. If an elementary teacher teaches all subjects to the same group of fourth graders all day, the class size average is simply the number of fourth grade students served by that teacher. If an elementary teacher teaches a single subject to five different sections of fourth graders each day, however, the average is calculated the same way as for secondary subjects. For example, one fourth grade science teacher teaches five science classes each day with 18, 20, 19, 21, and 22 students in each class. The total of 100 students divided by the five classes produces an average class size of 20 students for that teacher.

The following rules apply to the average class sizes:

- Classes identified as serving regular, compensatory/remedial, gifted and talented, career and technical, and honors students are included in the calculation.
- English language arts (ELA), mathematics, science, social studies, languages other than English, computer science, and career and technical education are included in the calculation, as are self-contained classrooms.
- Classes where the number of students served is reported as zero are not included.
- Service codes with the “SR” prefix are not included.
- Teacher roles coded as “teacher” and/or “substitute teacher” are included.
- Only class settings coded as “regular class” are included.
- Missing partial FTE counts are not included.
- Elementary classes in which the number of students exceeds 100 are not included.
- Mixed grade-level class averages are not included.

Staff Information (2024-25)

Total Staff: The total count of staff which includes professional staff (teachers, professional support, administrators), educational aides, and (on the district profile) auxiliary staff. *(Data source: PEIMS 30040, 30050, and 30090)*

Professional Staff: The full-time equivalent (FTE) count of teachers, professional support staff, campus administrators, and on the district profile, central office administrators. Staff are grouped according to roles as reported in PEIMS. Each type of professional staff is shown as a percentage of the total staff FTE. See Appendix B for all PEIMS Role IDs. *(Data source: PEIMS 30040, 30050, and 30090)*

Educational Aides: The count and percentage of paraprofessional staff who are reported with a role of 033 (Educational Aide) or 036 (Certified Interpreter). The FTE counts of educational aides are expressed as a percentage of the total staff FTEs. See Appendix B for all PEIMS Role IDs. *(Data source: PEIMS 30090)*

Auxiliary Staff *(not on campus profile)*: The count of full-time equivalent (FTE) staff reported in PEIMS employment and payroll records who are not reported in the PEIMS 30090 Staff - Responsibilities record. The auxiliary staff (and educational aide who performs routine classroom tasks under the general supervision of a certified teacher or teaching team) are expressed as a percentage of total staff. For auxiliary staff, the FTE is the value of the percentage of day worked. *(Data source: PEIMS 30060 and 30090)*

Librarians and Counselors (Headcount): The headcount of librarians and counselors is based on full-time equivalent (FTE) for full-time and part-time headcounts. Librarians and counselors are considered part-time when the FTE count is less than or equal to .85 (For example, if an FTE count is less than or equal to .85, the part-time headcount is equal to 1). Counselor includes PEIMS Role ID 008 and 117. Librarian includes PEIMS Role ID 013.

Librarians and counselors are headcounts, not sums of FTEs. The district headcount is not a sum of the campus headcount. For example, a counselor spends 50 percent of their time at the elementary (0.50 FTE) and 50 percent of their time at the high school (0.50 FTE). On each of the campus reports, this counselor will be reflected as 1.0 part-time counselor. On the district report, the counselor will be reflected as 1.0 full-time counselor since the FTE count is greater than .85 (0.50 FTE plus 0.50 FTE=1.0 FTE). See Appendix B for PEIMS Role IDs (Professional Support Staff). *(Data source: PEIMS 30040, 30050, and 30090)*

Total Minority Staff: The total count of minority staff is the sum of the FTE counts for all non-white staff groups (African American, Hispanic, American Indian, Asian, Pacific Islander, and Two or More Races). The minority staff FTE count is expressed as a percentage of the total staff FTE. *(Data source: PEIMS 30040, 30050, and 30090)*

Teachers by Ethnicity and Sex: The counts of teacher FTEs by ethnic group and by sex. Counts are also expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS 30040, 30050, and 30090)*

Teachers by Highest Degree Held: The distribution of degrees held by teachers. The FTE counts of teachers with no degree, a bachelor's degree, a master's degree, or a doctorate are expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS 30040, 30050, and 30090)*

Comprehensive Texas Performance Reporting System (TPRS) Glossary

Teachers by Years of Experience: The FTE count of teachers by total years of experience for the individual, not necessarily years of experience in the district or campus. Teacher counts within each range of experience are expressed as a percentage of total teacher FTEs. Teachers are reported with zero years of experience (first year teachers), 1-5 years, 6-10 years, 11-20 years, 21-30 years, and over 30 years. *(Data source: PEIMS 30040, 30050, and 30090)*

Number of Students per Teacher: The total number of students divided by the total teacher FTE count. *(Data source: PEIMS 30040, 30050, and 30090)*

Experience of Campus Leadership: The average years of experience for principals and assistant principals.

- *Average Years as Principal:* The number of completed years of experience as a principal, regardless of district or interruption in service. These amounts are added together and divided by the number of all principals reported for the campus.
- *Average Years as Principal with District:* The number of years a principal is employed in the district regardless of any interruption in service. The amounts are added together and divided by the number of principals reported for the district.
- *Average Years as Assistant Principal:* The number of completed years of experience as assistant principal, regardless of district or interruption of service. The amounts are added together and divided by the number of assistant principals reported for the campus.
- *Average Years as Assistant Principal with District:* The number of years employed as assistant principal in the district regardless of any interruption in service. These amounts are added together and divided by the number of assistant principals reported for the district. *(Data source: PEIMS 30050)*

Average Years Experience of Teachers: The average number of completed years of professional experience, regardless of district. Weighted averages are calculated by multiplying each teacher's FTE coefficient (1 for a full-time teacher, .75 for a three-quarter-time teacher, and .5 for a half-time teacher, for example) by his or her years of experience. These amounts are added together and divided by the sum of all teachers' FTE coefficients. *(Data source: PEIMS 30040, 30050, and 30090)*

Average Years Experience of Teachers with District: The average number of years employed in the district regardless of any interruption in service. Weighted averages are calculated by multiplying each teacher's FTE coefficient by his or her years of experience in the district. These amounts are added together and divided by the sum of all teacher's coefficients. *(Data source: PEIMS 30050)*

Average Teacher Salary by Years of Experience (regular duties only): Total pay for all teachers in each category divided by the total teacher FTE count in that category. For the purpose of this calculation, the total actual salary amount is pay for regular duties only and does not include supplemental pay. For teachers who also have non-teaching roles, only the portion of time and pay dedicated to classroom responsibilities is factored into the average teacher salary calculation. Teachers are reported with zero years of experience (first year teacher), 1-5 years, 6-10 years, 11-20 years, 21-30 years, and over 30 years. *(Data source: PEIMS 30060)*

Comprehensive Texas Performance Reporting System (TPRS) Glossary

Average Actual Salaries (regular duties only): For each category, the total salary for that category divided by the total FTE count for that category. Only payment for regular duties is included in the total salary; supplemental payments for extra duties (e.g., coaching, band and orchestra assignments, club sponsorships) are not included. See Appendix B for lists of the PEIMS role IDs included in each category.

Teachers. Teachers, special duty teachers, and substitute teachers. Substitute teachers are either temporarily hired to replace a teacher or hired permanently on an as-needed basis. The District Teacher Salary Report and Graph also uses this definition in creating counts for various salary ranges.

Professional Support. Therapists, nurses, librarians, counselors, and other campus professional personnel.

Campus Administration (School Leadership). Principals, assistant principals, and other administrators reported with a specific school ID.

Central Administration (not on campus profile). Superintendents, presidents, chief executive officers, chief administrative officers, business managers, athletic directors, and other administrators reported with a central office ID and not a specific school ID.

Instructional Staff Percent *(district profile only)*: The percentage of the district's FTEs whose job function was to provide classroom instruction directly to students during the 2023-24 school year. The instructional staff percent is a district-level measure and is calculated as follows:

$$\frac{\textbf{Total number of hours for district staff who were reported under expenditure object codes 6112, 6119, and 6129, and function codes 11, 12, 13, and 31}}{\textbf{Total number of hours worked by all district employees}}$$

Contact the Division of Financial Compliance at (512) 463-9095 for further details about this measure. *(Data source: PEIMS 30040, 30050, and 30090)*

Turnover Rate for Teachers *(not on campus profile)*: The percentage of teachers from the fall of 2023-24 who were not employed in the district in the fall of 2024-25. It is calculated as the total FTE count of teachers from the fall of 2023-24 who were not employed in the district in the fall of 2024-25, divided by the total teacher FTE count for the fall of 2023-24. Teachers include PEIMS Role IDs 087 and 047. Staff who remained employed in the district but not as teachers also count toward teacher turnover. *(Data source: PEIMS 30040 and 30090)*

Staff Exclusions *(not on campus profile):* The counts of individuals who serve public school students but are not included in the FTE totals for any of the other employee statistics. There are two types of these entries: individuals participating in a shared services arrangement and individuals on contract with the district to provide instructional services.

Shared Services Arrangement (SSA) Staff are staff who work in schools located in districts other than their employing district or whose assigned organization (in PEIMS) shows a code of 751, indicating that they are employed by the fiscal agent of an SSA. Only the portion of a person's total FTE amount associated with the school in another district (or with the 751 organization code) is counted as SSA. SSA staff are grouped into three categories: Professional Staff (which includes teachers, administrators, and

professional support); Educational Aides; and Auxiliary Staff. Note that SSA Auxiliary Staff are identified by the type of fund from which they are paid.

Contracted Instructional Staff (District and Campus Profiles) refers to counts of instructors for whom the district has entered into a contractual agreement with some outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They are never employees of the reporting school district. *(Data source: PEIMS 30055 and 30060)*

Contracted Instructional Staff: The count of individuals who are not regular classroom teachers who have signed a contract with a district, nor are they shared services arrangement employees. Rather, these are instructors for whom the district has entered into a contractual agreement with an outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They include, but are not limited to, speech therapists, occupational therapists, and any other professional contracted staff working in a classroom on a dedicated basis. *(Data source: PEIMS 30055)*

Teacher Incentive Allotment (TIA): The headcount of teachers who received incentive allotment per House Bill 3 and TEC Sec. 48.112 and average TIA payout by categories of Recognized, Exemplary and Mater for the 2023-24 school year. *(Data source: Division of District Talent Systems)*

Teachers by Program *(population served):* The FTE count of teachers categorized by the type of student populations served: regular, special, compensatory, bilingual/ESL, gifted and talented education students, and other populations. Teacher FTE values are allocated across population types for teachers who serve multiple population types. Percentages are expressed as a percentage of total teacher FTEs. *(Data source: PEIMS 30040, 30050, and 30090)*

Kindergarten Readiness (2024-2025)

This report includes kindergarten readiness data for students who were enrolled in public kindergarten and were assessed using one of the approved instruments on the Commissioner's List. *Data are shown for the district and campus at which the student attended kindergarten.*

Readiness is based on the literacy assessment only and does not provide comprehensive information on student readiness across important developmental domains.

Assessed Students in KG: Kindergarten students enrolled in the Texas public school system as of the Fall Snapshot date (the last Friday in October of each year) who were administered, at the beginning of year (BOY) administration, an assessment on the Commissioner's List. Students may take multiple assessments.

Eligible: Kindergarten students who met at least one of the public prekindergarten (PK) eligibility criteria during the kindergarten year-economically disadvantaged, emergent bilingual (EB) student/English learner (EL), homeless, is or ever has been in foster care, is the child of an active duty member of the armed forces of the United States, or is the child of a member of the armed forces who was injured or killed while on active duty-not the actual eligibility as of the PK year. PK eligibility is based on a student's status as of his/her kindergarten year as there are no comprehensive data concerning PK eligibility for children who did not attend public PK.

Eligible Students Who Attended PK: Kindergarten students who were assessed for kindergarten readiness and were eligible to attend public PK and did attend.

Eligible Students Who Did Not Attend PK: Kindergarten students who were assessed for kindergarten readiness and were eligible to attend public PK but did not attend.

Students Who Were Not Eligible for PK: Kindergarten students who were assessed for kindergarten readiness and were not eligible for public PK.

Students Ready for KG: Count of all assessed kindergarten students who met or exceeded the cut-off score for a particular assessment on the Commissioner's List. Kindergarten readiness for each assessment is assessed differently across multiple assessment domains with varying benchmarks/cut-off scores of readiness. For school years 2019-20 through 2023-24, readiness is based on the reading instrument required by Texas Education Code (TEC) 28.006 only and does not provide comprehensive information on student readiness across all developmental domains.

Students Assessed in KG: Count of all kindergarten students who were assessed for kindergarten readiness.

Percent Ready: Percentage of all assessed kindergarten students who were determined to be kindergarten ready based on assessment results.

Prekindergarten Effectiveness (2024-25)

This report includes kindergarten readiness data for students who attended public prekindergarten the prior year for at least 80 days at the age of four (as of September 1), and were assessed in kindergarten using one of the approved instruments on the Commissioner's List. *Data are shown for the district and campus at which the student attended prekindergarten.*

Readiness is based on the literacy assessment only and does not provide comprehensive information on student readiness across important developmental domains.

Eligible PK Attendees Assessed in KG: Kindergarten students enrolled in the Texas public school system as of the Fall Snapshot date (the last Friday in October of each year) who were administered, at the beginning of year (BOY) administration, an assessment on Commissioner's List, were eligible to attend public prekindergarten, and did attend.

Students Ready for KG: Count of assessed kindergarten students who attended prekindergarten and met or exceeded the cut-off score for a particular assessment on the Commissioner's List. Kindergarten readiness for each assessment is assessed differently across multiple assessment domains with varying benchmarks/cut-off scores of readiness. For school years 2013-14 through 2024-25, readiness is based on the reading instrument required by TEC 28.006 only and does not provide comprehensive information on student readiness across all developmental domains.

Students Assessed in KG: Count of prekindergarten attendees who were assessed for kindergarten readiness.

Percent Ready: Percentage of assessed kindergarten students who attended prekindergarten and were determined to be kindergarten ready based on assessment results.
