- III. AP Capstone Diploma
- IV. AP Seminar
- V. AP Research
- VI. Teacher & Parent Perspectives
- VII. Questions & Answers

# Advanced Placement (AP)

- The Advanced Placement (AP) program was created by the College Board in 1955 to provide students with college-level work in high school. There are currently 37 Advanced Placement Exams across 22 subjects offered during May of each year. Students may earn college credit for their AP exam scores. By taking AP courses, students can...
  - Get a head start on college-level work
  - Improve their writing skills and sharpen their problem-solving techniques
  - Develop the study habits necessary for tackling rigorous course work
  - Study subjects in greater depth and detail

# AP Computer Science Principles

Introductory college-level computing course where students cultivate their understanding of computer science through working with data, collaborating to solve problems, and developing computer solutions as they explore concepts like creativity, abstraction, data and information, algorithms, programming, the internet, and the global impact of computing

Computer Science Principles is modeled on college versions for non-majors. It lets teachers pick any coding language and has a gentler vibe. There is an exam, but students also submit projects “more similar to a studio art portfolio,” Mr. Packer said. The course covers working with data and understanding the internet and cybersecurity, and it teaches “transferable skills,” he said, like formulating precise questions.

New York Times, Learning to Think Like A Computer, Pappano, April, 2017

# What does the course cover?

---

## Creativity

Create a computational artifact for creative expression.

## Abstraction

Explain how binary sequences are used to represent digital data.

## Data and Information

Extract information from data to discover and explain connections, patterns, or trends.

# What does the course cover?

---

## Algorithms

Express an algorithm in a language.

## Programming

Collaborate to develop a program.

## Global Impact

Analyze the beneficial and harmful effects of computing.

## The Internet

Explain characteristics of the Internet and the systems built on it.

# AP CS Principles Assessments

Explore Performance Task  
8 hours, 16%

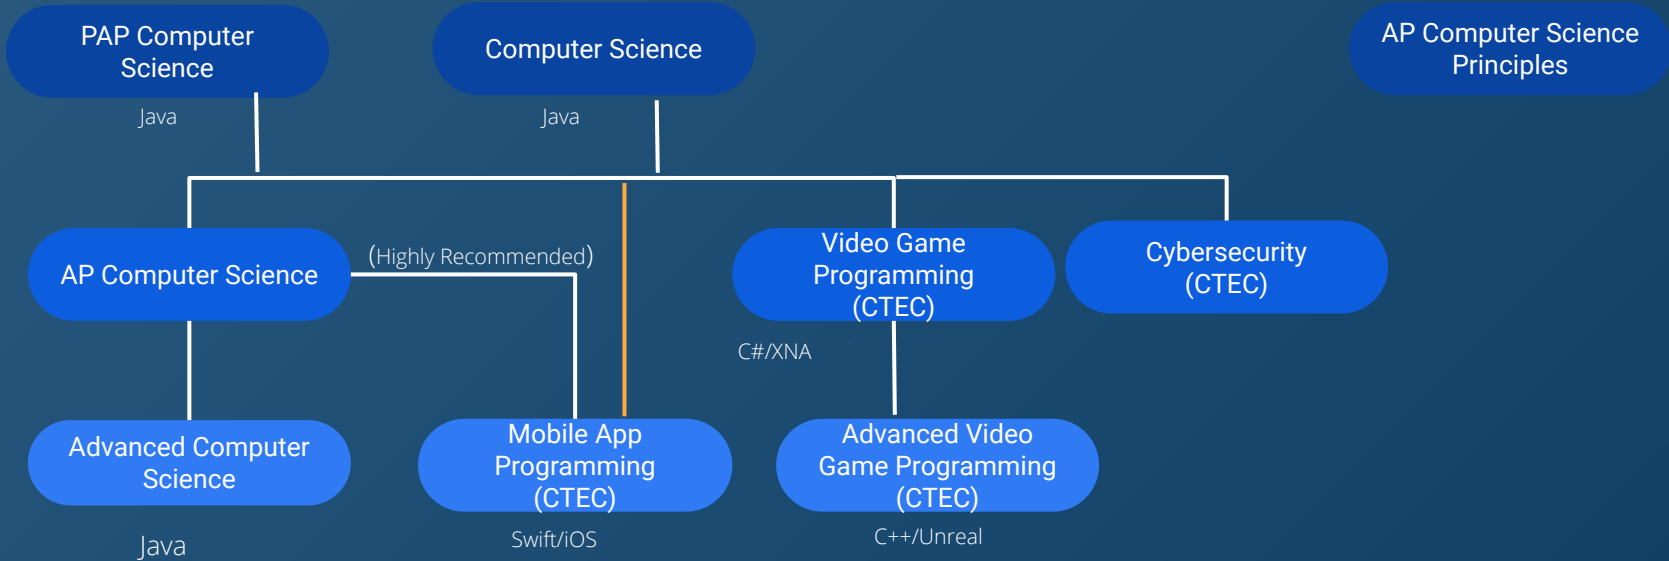

Create Performance Task  
12 hours, 24%

End of course Exam  
2 hours, 60%

Unlike many AP courses, AP CSP requires performance tasks throughout the year in addition to a multiple-choice exam in May. The three components are combined to provide the AP exam score.

# Pathways in Frisco ISD

# What's the Difference?

## AP Computer Science Principles

- General computing course
- Only 25% coding (not Java)
- Technology credit

## AP Computer Science A

- Coding course using Java
- Prerequisite is Pre-AP Computer Science or Computer Science
- Technology credit

# AP Capstone Diploma

# AP Capstone

**AP** Capstone™ is an innovative program that helps you stand out in the college admissions process by developing the critical skills needed to succeed in college and in your future career.

**Emphasizes Critical Skills Needed  
for College & Beyond**

**Complements the in-depth  
subject-matter study in AP**

Two new courses—**AP Seminar** and **AP Research**—allow students to immerse themselves in topics that matter to them, while they develop the analytic, research, problem-solving, and communication skills that colleges seek in their applicants.

# AP Capstone

This challenging program helps students deepen their passion for learning, gives them greater confidence in their academic skills, and a broader perspective on their world.

## AP Capstone Diploma™

Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams will receive the **AP Capstone Diploma**.

### AP SEMINAR (Year 1)

Team Project & Presentation

Individual Research-Based Essay & Presentation

End-of-Course Exam

### AP RESEARCH (Year 2)

Academic Paper

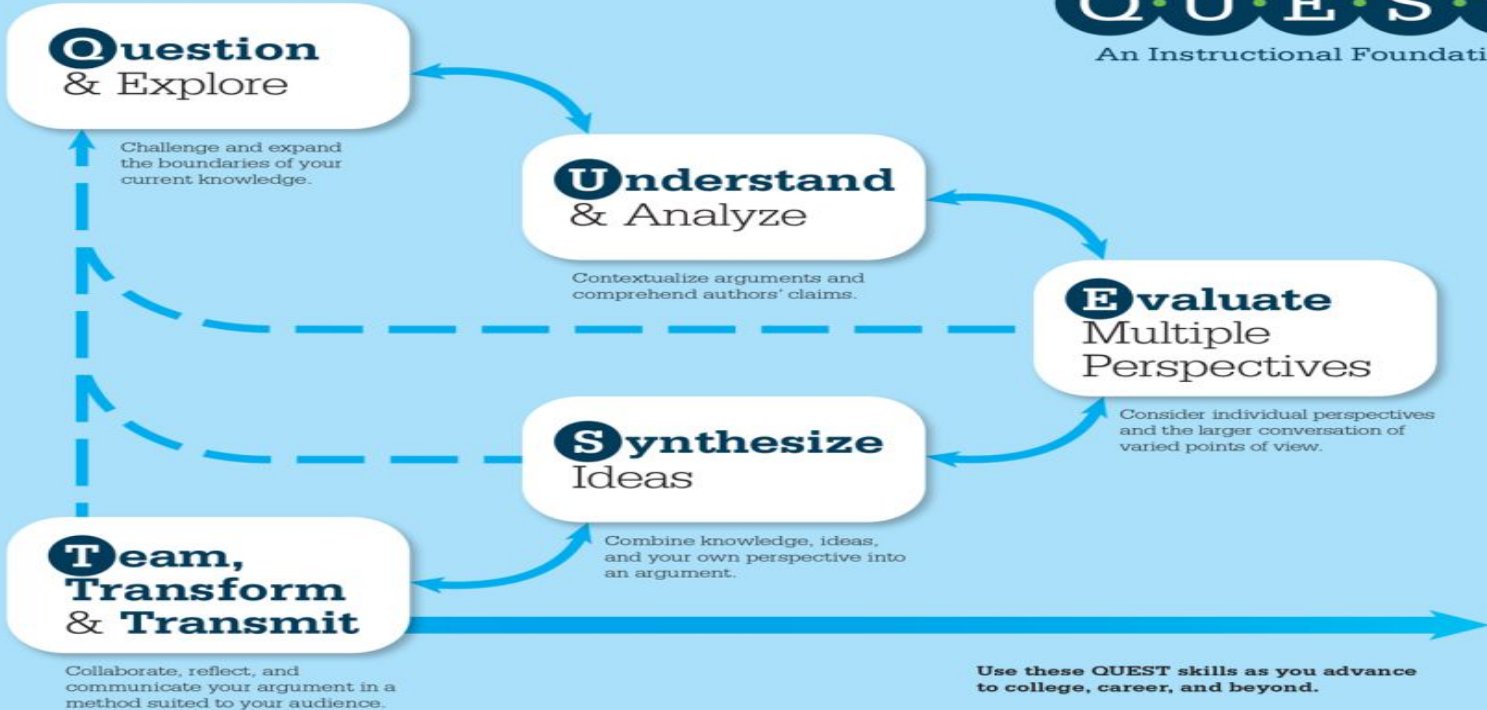

Presentation & Oral Defense

4 AP COURSES & EXAMS  
(Taken at any point throughout high school)

## AP Seminar and Research Certificate™

Students who earn scores of 3 or higher in AP Seminar and AP Research will receive the **AP Seminar and Research Certificate**™

# QUEST

# AP Seminar

*Typically taken in grade 10 or 11.*

## Students learn how to:

- ▶ Investigate real-world topics from multiple perspectives
- ▶ Carefully analyze information, write evidence-based arguments and effectively communicate them
- ▶ Work independently and with a team to research a topic, develop a written report and deliver a presentation

### Example Topics

Democracy  
Education  
Environment  
Revolution  
Technology  
Sustainability

## Exam score based on:

1. Team Project & Presentation
  - 20%
2. Individual Research-Based Essay & Presentation
  - 35%
3. End-of-Course Exam
  - 45%

*Teachers & Students select and study 2-4 topics.*

# AP Research

*AP Seminar is a prerequisite to AP Research.*

## Students learn how to:

- ▶ Design, plan, and conduct a year-long mentored, research-based investigation
- ▶ Apply research methods and practices to address a real-world topic selected by the student
- ▶ Write a college-level research paper
- ▶ Present and orally defend research findings and methodology

## Exam score based on:

1. Academic Paper  
(4,000 - 5,000 words)
  - 75%
2. Presentation and Oral Defense
  - 25%

# AP Capstone

# AP Capstone - The Benefits

- **Earn Distinction** - Stand out in the college admission process and have the opportunity to earn valuable college credit or placement
- **Acquire Critical Skills** - Students acquire challenging career and college-level analysis, writing and research skills that are increasingly valued by colleges and in the workplace
- **Choose what to study** - Students choose their own research topic and study issues and topics of interest and importance to them
