Numerous

Asked By: Sherrie Salas , Parent

Response Notes: There is a great deal of information available on our website:

<https://www.friscoisd.org/departments/standards-based-practices/home> This includes answers to many of the concerns stated, including consistency and our approach to providing professional learning and efficient practices in the application of standards-based practices. We are always working to support our incredible teachers so that this practice, while beneficial to the learning process for students, is not also an additional workload added to our teachers.

Concerns on Warehouse construction at intersection of FM423 and Rockhill

Asked By: Kiran Guptha, Parent

Response Notes: The school district has no authority pertaining to the zoning of land or construction that takes place on that land. These issues are a function of the City of Frisco, not the School District. The school district would prefer single family homes if we were to get to choose. The City also decides school zones, the school district will work with the city and ask them to create school zones that help to keep students safe.

Title IX and bathrooms - don't accept federal funding

Asked By: Tim Lambert, Community member
